Robert Bosch Engineering and Business Solutions Private Limited (RBEI) is a 100% subsidiary of Robert Bosch GmbH. We are one of the world's leading suppliers of technology and services, offering end-to-end business and engineering solutions. With a global footprint and presence in the United States, Europe, Japan, China and the Asia-Pacific region, we are cutting edge in the design, development and execution of IoT ecosystems through our ability to all-compass in the 3 aspects of IoT - Sensors, Software and Services. We have always focused on improving the quality of life of people, providing new opportunities for generation of revenues and improving operational efficiency for businesses through a number of solutions. With our unique ability to offer end-to-end solutions that connect sensors, software and services, we allow companies to move from traditional to digital, or improve companies by introducing a digital element in their products and processes. Robert Bosch Engineering & Business Solutions PVT LTD 1990 (31 years) Do you want to know how Bosch transforms research into those real life moments "WOW"? In every episode of this podcast, our resident hosts Melena and Geoff will illuminate a technical topic from different perspectives. First-class experts meet who take you on a deep dive into a world that makes life smarter, safer and more sustainable. Made for people who love technology, and a good story. In a first move, Robert Bosch Engineering and Business Solution India, a subsidiary of Bosch GmbH, has created an independent unit to manage its non-Bosch customer activity. This entity, called Software and Digital Solutions or SDS, will focus on providing digital software and services in the areas of digital enterprise, R&D engineering, new age technologies (e.g. AI, AR/VR, Blockchain etc.) "Our restructuring initiative began in 2Q, 2020. For us it is more than possible to anticipate the future question and to be where we are needed. This change we are...
