SB, Automower, New Software for 305, 305, 2011-04

General information

New Main software, MMI (Man Machine Interface) software and Sub System software have been released for Automower® 305. It is recommended to update all Automower® 305 before delivery to end customer.

- New Main Software (MSW): 1.01.00
- New MMI Software (MMI): 1.04.00
- New Sub System Software (SUB): 1.01.00

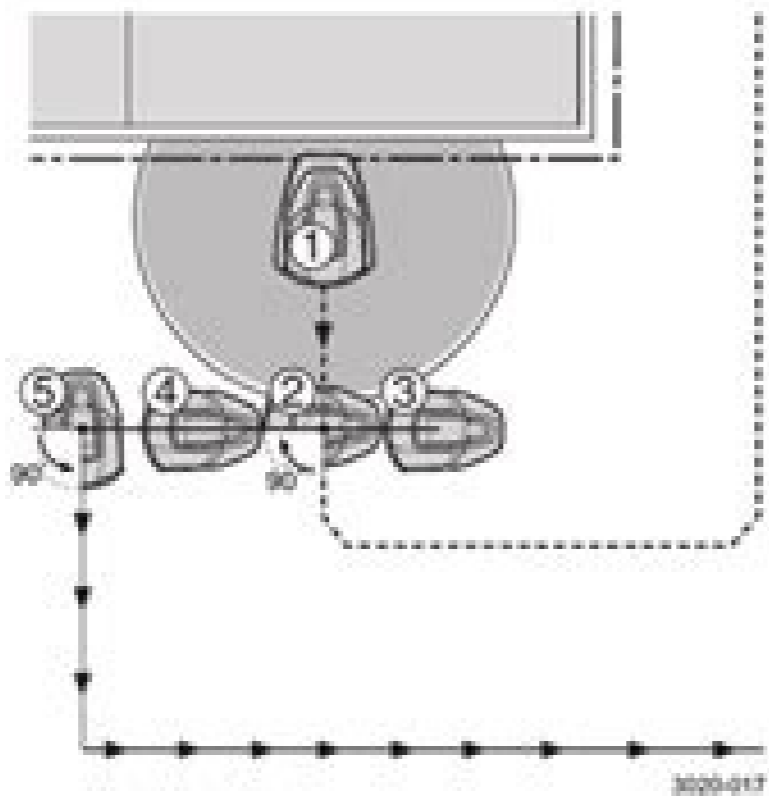

The new softwares includes the following changes:

- Calibration of guide has been improved
- Test Out and Test In procedure has been improved
- Demo mode has been introduced
- New message codes in display
- Sub System Software introduced
- Several minor SW improvements (not described in detail in this SB)

Detailed information

Calibration of guide

Improvements have been done in the calibration of guide. The purpose of calibration of guide is that the guide width setting should have the same width (50 cm and 100 cm), irrespective of garden layout.

Automower connect app manual. Automower connect@home manual.

IF This Then That (IFTTT) connects internet-enabled devices and cloud services to create automated commands. Gone are the days of manually programming your robotic mower. Easy to set up and accessible across a variety of devices, it enables you to integrate your Automower® Connect compatible tools to your smart home system in just a few clicks.Rediscover the joy of your garden without needing to invest endless hours in keeping your lawn perfectly trimmed. Automower Scheduling - Set, view and change mowing schedules to fit into your life with a few taps on the screen.3. Theft Protection - Geofence, GPS tracking and live maps showing the location of your mower in real-time.4. Installation Settings - Customisable installation and operation settings that allow you to further personalise your Automower® settings. oday, the technology enables you to start, stop, park, schedule and integrate your Automower® into your smart home.
