Our Clients Include: YouTube has helped act as the great leveler between large and small businesses when it comes to distributing thought leadership and viral marketing videos online. Absolutely. Yes, all our sounds and music can be used in commercial projects, even for broadcast. There are even more benefits to upgrading too, such as no download delays, lists, more results per page and more. We're one of the fastest growing free sound effects & royalty free music libraries with thousands of professional, free sounds to download instantly in mp3 or original wav file format and upload hundreds more every week. To me it's one of the greatest bargains in the independent SFX library community. Anyone can start up a channel and upload a video for mass consumption, and these days it seems as if everyone is, with more than 20 hours of video reportedly being uploaded every minute to YouTube. TV, film, radio, games, podcasts, advertising, social media, audiobooks, presentations etc are all covered. All our free sounds and music are safe to use for any non-commercial and commercial use, even for broadcast. But not all videos are created equally. With the advent of cheaper and more powerful consumer video cameras, many improvised videos created by enterprising small businesses offer excellent visual results. In fact thousands of our users are doing just that. We check every file for quality and we only add content we, or our contributors recorded themselves. Our ethos is simple. ZapSplat is here to benefit everyone. All our sounds are 100% royalty free and safe for you to use and our Licensing is clear and simple to understand.
