Spotify is the world's number one music streaming application where you can listen all your favorite songs without any problem. This app enhances your music experience because it has so many great features which you can during listening your music. This amazing music platform gives you millions of songs, podcasts and music. You can make your own music collection because this app allows you to make your own playlist so you can add all your favorite songs and music without any limitation. It is a huge network that's why millions of people are using this platform on daily basis which are increasing day by day. So be a part of this platform and enjoy all your favorite music anytime anywhere.

You can use this app for free but you will get limited features and for premium version you have to buy monthly subscription which is around \$9.99 but in this premium version you don't need to pay anything and you can easily use all the features for free. This premium version of Spotify is the cracked or hacked version of official Spotify application. In this version you don't need to buy or pay anything because it offers you complete features for free. You can enjoy ad-free music and you can download as much as you can because there are no limitations. It gives you high quality with dynamic sound effects. What you can do with Spotify premium You can listen your favorite music without any limitation. Make your own music playlist and add unlimited songs to share with others. It has all the genres and categories according to your mode. Download and save your music to play offline. Ads-free experience. Free unlimited podcasts. You can use your account on any account to listen your songs. Spotify is a music world for those people who love to listen music all the time. It has music from Bollywood to Hollywood and all the other albums and podcasts. You can search all your favorite music and artist by name without any problem. This premium version is the best option for those people who are unable to buy subscription. This music app has many unique features which you will never find on any other music streaming app. Before downloading this premium version you should check out its cool features which will help you to make your mind. Unlimited Music As you know that this app has more than 50 million songs which means surely it has all your favorite songs and music which you can listen on this application. You can search unlimited songs and there is no limitation so you can download as much as you can. When you open this app it shows you the category of different music and songs which you can follow or choose so after this it shows you songs according to those recommendation. You can also follow the different artists and it will show you their songs and music.

You can add all your favorite songs in your playlist easily. Ad-Free Experience It is a very great feature because with this premium version of Spotify you will never face ads while you were listening songs. You don't need to pay for them for this feature because this mod version is providing this feature for free of cost. So it will enhance your experience for sure because ads will not interrupt you again and again. This mod version of Spotify automatically blocks every single ad so there is no need to be worried. Unlimited Offline Download This is probably the best feature and it is only available in premium version which means you can't enjoy this feature in regular Spotify. Simple process to download music Just open your favorite song. Add your favorite songs in playlist by clicking add to playlist option. Click on your playlist to open it and then click on download button. Then it will start downloading all the songs which will be in your playlist. Unlimited Shuffle It is also a very good feature of this application because it allows you to shuffle all songs so this app will arrange all the songs randomly. It is a very cool feature because you don't need to listen same song again and again. There are no limits in this option because this mod version gives you unlimited shuffle. If you don't know how to turn on this feature then follow these simple steps. First go to the music library and select your playlist. Open playlist according your choice. Then click on the shuffle play Enjoy songs in shuffle mode This mode is just available in premium version but with mod version you can enjoy this feature for free. Spotify Connect People love this app because of many great features and Spotify connect is a very interesting feature because it allows you share your favorite songs or music with your friend and family members easily. With this cool feature you can also listen your songs on smart TV, Bluetooth, and radio. How you can use Spotify Connect Play your song in Spotify app. Click on the device icon which is located in the bottom left corner. Select the device on which you want to listen. Then simply download this app on that device to enjoy your music. It is very simple to download the application on other device. You will get all the guidance while downloading the app. Some extra feature It has some extra features which you get in premium version of Spotify. Free podcasts. Play your favorite music on different devices. Create different playlists of various moods. More than 62 music channels. Download your favorite playlist with just single click. It is a very simple process to download and install Apk file in your device. You just need to follow the simple steps so it will be easier for you to download this app in your device.
