When it comes to controlling an Android or iOS device from a PC, the best thing that can be found on the internet is Wondershare MirrorGo. This tool can help control PowerPoint from Android as it is designed to control your device on PC. Apart from that, you can mirror your screen on a PC very easily. The tool is completely safe, and there is no harm while you download it on your PC. Achieving a 100% success rate, one can trust on t and download without any doubt. Here is how you can use this tool. Follow the instructions below! Mirror your android device to your computer! Play mobile games on the big screen of the PC with MirrorGo. Store screenshots taken from the phone to the PC. View multiple notifications simultaneously without picking up your phone. Use android apps on your PC for a full-screen experience, Step 1: Download and install MirrorGo from its official website. Download, install and then launch MirrorGo over your PC. Next, get your device and your PC connected with the help of an authentic USB cable. Then, hit on the "Transfer Files" option over your device. Step 2: Enable USB Debugging on your Android phone. You now need to enable USB Debugging. For this, get in the "Settings" of your device and navigate to the "Build Number" available under "About." Now, to activate the Developer options, hit on the "Build Number" 7 times. Once done, go back to "Settings," locate the "Developer options," and hit on it. Then, scroll down to "USB debugging," followed by turning it on. Step 3: Make use of a keyboard and mouse to control the PowerPoint app over your device. After the phone establishes the connection between the device and the computer successfully, you can then use a keyboard and mouse to control the PowerPoint app over your device.
