FNaF 6: Pizzeria Simulator (MOD, Unlocked) - the continuation of the popular horror franchise which, due to the original gameplay and unusual plot, has earned immense popularity and here we have the next part of the series. However, this time, the developers decided to move somewhat away from the original mechanics, and FNaF 6: Pizzeria Simulator itself is like a backstory. And so, you have to take control of a small pizzeria and try to turn it into a profitable and popular restaurant, and for this you will have to linger in the evenings. As visitors develop, there will be more, and more work will be added, but what will happen next I think everyone who played in the previous parts already knows. Updated to version 1.0.4! After a busy day, get your paperwork together and close your business (usually late at night to set up your own!) But be aware of what may be lurking in the vents. If there is something that needs your attention, punch a flashlight directly into the vent to repel it, and Fazbear Entertainment provides free batteries to all its franchisees!The next day, assuming you survived the night, reinvest yesterday's earnings in new equipment. Develop your small pizzeria daily to make it an empire of dining and entertainment! Fazbear Entertainment provides its franchisees with all the tools and knowledge needed to create and manage a pleasant, safe and profitable location Oh, and if you're so inclined, try to save some of the electronic animation devices that linger outside of restaurants. They're trying to make inroads for a few months now, and it's best not to miss the opportunity to pick up spare parts and earn some extra income. If you find any of them to be unstable or aggressive, please use the self-defense taser that Fazbear Entertainment provides free to all of its franchisees.This ends the assistance we are legally obligated to provide.Fazbear Entertainment is not responsible for missing, dead or maimed people as a result of operating Freddy Fazbear's pizzeria franchises.
