Wayanad is a good silent tourist destination, as they say about Kerala -"Gods own country", looks to be true in Wayanad also. Wayanad is the combination of Hill Station, Forests, Tracks, Water Falls, Lake, Caves, tea states etc. The drive to Wayanad and within Wayanad is a pleasure. As it is district the places are located at a distance from each other. As north Kerala is famous for its Hospitality so is Wayanad, local crowd is also very hospitable and tries to help u in every possible way. We have visited places like meenmutty waterfalls, sunrise valley, Muthanga Wildlife Sanctuary, Edakkal Caves. Wayanad is one of the beautiful places I have visited in Kerala, India. The place is known for natural beauty. We had a visit to Wayanad last week, which turned to be one of the most memorable trips I have made. Visit to Edakkal caves was truly adventurous one and I would recommend it for anyone whois interested in adventure. Evening spent at Kuruvu islands was awesome. We were able to enjoy the natural beauty, wild life, flora and fauna and the cool breeze of hill resort. We also visited Tholpetty wildlife sanctuary and Muthanga wildlife sanctuary which are well known wild life sanctuaries of Wayanad. We could see lot of elephants, peacocks, beers, monkeys, various types of birds and butterflies and many more. It was really a wonderful experience for us. We were able to get tribal food also which was very delicious. We also visited Pookod lake, which is one of the must-see places where we enjoyed the pleasure of boating. Wayanad is one of the most beautiful places where nature has blessed a lot. 22. The Beauty of Nicholay's Estate The fresh smell of gooseberry orchards can be felt here in this time of early morning.You can see the leisurely movements of the sheep out there in the farm.The melodious songs of the birds chirping is heard.There is a vast lake in the middle.The sound of the lake water lashing at the shore adds to the music.The bees are murmuring.The breeze is warm.The clouds hang low over the fields.it seems like it is going to rain.The sun is rising on the hilltop.It is a beautiful sight. 23. Life -A Double Edged Knife The poet says that this world is a double edged knife and we have only one life. He calls us to enjoy it, live it well in good company and do dwell. He exhorts us to do good deeds .and to sow in our character's seeds ,cultivate mind with manure of thought The poet seems to focus on the direct influence of good thoughts and experiences on our character and actions.It also underlines the importance of identifying our needs ,planning and decision making for a successful in life.It highlights the uniqueness of life and implores us to enjoy life but at the same time it warns us to be careful about the traps of life for it is a double edged knife. The imagery from farming is presented with the help of words like seeds,weeds and manure .The tone is pleasant but overbearing. It is free verse with poetic techniques likes rhyme and rhythm. The sharp metaphor used in the beginning,"The world is a double edged life' is striking.The advice is to try to have good qualities and not to think about quantities.The language is simple and flowing .Still whether this raises itself to poetry is arguable.Perhaps this is flowery speech intended to warm a lazy mind up. The meaning of the poem can be extended to that of the poem "Death the Leveller "since both of the poems centers on good actions.Only the good actions remain. Everything else dies. It is our duty to live our life spreading the fragrance of nice deeds.This calls for a careful approach from every one of us. ***** to be modified ***** These answers are for the purpose of discussions and are subject to modifications and corrections Page 2 11 ENGLISH KERALA DHSE QUESTION PAPER MARCH 2012 Email ThisBlogThis/Share to TwitterShare to FacebookShare to Pinterest
