01/13 to 06/14 20 Classes Wednesday 11:00am-12:00pm \$300/term No classes on March 24, 31 Location: Online This course focuses on building writing skills and grammar systematically for students in Kindergarten, grade 1, and grade 2. This level has a special focus on writing sentences. Most of the skills are drawn from the higher level of the grade spread, therefore this class is most appropriate for advanced Kindergarten students and on-level grade 1 & 2 students. Each of our levels has two years worth of skill content. A student can take this level for two years without repeating content! Our "skill-based" program helps children focus on specific writing skills in each class, so students gain mastery skill by skill. They become confident, competent writers. Each term we practice many genres of writing. Each genre builds different skills such as building attention to word choice with poetry and attention to descriptive details with science writing. Meanwhile "guided" writing is highly supported, and enables students to produce complete writing that is well-structured. An example guided writing assignment could provide the following prompts: 1. What was the best thing that happened over winter vacation? 2. Who was there? 3. Where was it? 4. When did it happen? 5. What happened first? 6. What happened next? 7. What happened last? 8. Complete the sentence: It was the best because _____. A child who follows these prompts easily learns the importance of answering the questions who, when, and where, as well as including a sequence of events and a closing that relates to the main idea. When they draft their paragraph on a new piece of paper, they have a complex and complete paragraph. Student Grammar/Workbooks for Writing 1BDaily Warm-Ups: Nonfiction & Fiction Writing Grade 1 Books in PDF will be uploaded to the students' class page before the term starts.
