There are some things you can do to get diamonds quickly and I will share them through this post. The fastest way is to buy diamond multipliers. If you don't want to buy diamond multipliers, one simple thing you can do is login every day. Every day below (up to 10 days) you sign in makes you earn more diamonds. Another easy thing you can do is sleep your character up to the leveling scale. When you sleep you gain more energy. The more energy means getting more experience for your level. Every time you climb to the level, you will receive 300 diamonds. A lesser known way to get diamonds is glitching the art studio. The art studio is located on the right side of the second floor. I feel it's become more difficult to make glitch at the art studio, but I found a video on YouTube showing a method that still works. You can look at him here. I hope you find it useful.
